Returned with the following remarks -

The rates of D A obtaining in the Government of India have been adopted in the case of the pensioners of the Bangalore Municipal Commission who retired prior to 1 12 48 under specific sanction of the Local Government Though the Mysore rates of D A as sanctioned in G O No Fl 2022-2087/5 & A 36-46-2 dated 4 9 1946 would be more advantageous to Pensioners whose pension is Ps 40/- or less p m , it would be a disadvantage to those drawing more than Rs 40/- p m Pensioners drawing Rs 46/- or more would not get any D A at all under the Mysore Government rules Among the pensioners who retired prior to 1 12 48, it will not be either fair or equitable to apply Government of India rates to some and Mysore rates of D A to others There should be one uniform principle in the application of rules in this behalf The fact that there would be savings to the extent of about Rs 54/- per annum in the cost involved by applying Mysore rates instead of Government of India rates does not in itself afford sufficient grounds or authority for changing the rates as per the prayers of the petitioners Another question as to the date from which the revised rates of the Government of India may be given effect to and what the extra cost on that account will be has also to be considered The facts of the case have to be reported to Govt and their orders obtained before effecting any change in the existing rates
